

MultiPlex 3000

Booster / Additive™

BIOSTIMULANT / ADJUVANT

MultiPlex 3000™ is a proprietary blend of biological substances and compounds. In powder form it can be added to **CitruSolve C-100™** and applied to citrus trees by foliar spray application to improve its ability for recovery from HLB. **MultiPlex 3000™** is designed and formulated to be used with the first four applications of **CitruSolve C-100™**.

Application rate per acre: Mix one (1) five gallon pail of **MultiPlex 3000™** per 128 gallon tank mix of **CitruSolve C-100™** and apply 128 gallons of this tank mix per acre. Amounts may vary due to size of trees and row spacing. Clean application equipment of any chemical residues before using **MultiPlex 3000™**.

Please consult with representative for recommended applications as applications may vary due to tree and soil conditions.

MultiPlex 3000™ is a micro-nanotechnology manufactured product using a proprietary formulation process. Ingredients may, but not limited to, dextrose, nitrogen, phosphorous, potassium, potash, fulvic acid, humic acid, amino acids, and anti-microbial agents. **MultiPlex 3000™** is specifically formulated as a biostimulant to enhance fruit size, weight, color, and taste, as well as an adjuvant to enhance the performance of other products.

MultiPlex 3000™ is packaged in plastic five gallon pails so one pail fits any size spray tanks for easy product handling, and is priced accordingly.

Price: \$60.00 per acre per application, four applications recommended

Example:

500 gallon tank at 128 gallons per acre = 3.9 acres = \$240.00

750 gallon tank at 128 gallons per acre = 5.85 acres = \$350.00

1000 gallon tank at 129 gallons per acre = 7.8 acres = \$468.00
